

Woodlyn® 4000 Chair

The Woodlyn 4000 Chair features quiet operation and high quality precision. Fully motorized by a foot pedal or the Millennium Instrument Stand, the 4000 adjusts from full-upright to prone position, and up and down. Additional features include an auto return, full range 320 degree rotation with locking controls accessible from either side, armrests that swing aside for convenience in seating the patient, and removable cushions for easy cleaning and replacement. The 4000 chair is also available in a wide variety of contemporary colors.
